

# Our refreshed home-learning offer...

...building on feedback from parents

## Telephone communication 08

Dhoon school has made telephone contact with all families to keep them updated with our home-learning offer and to check on the progress of our pupils.

## Well-being and pastoral offer 07

Dhoon School has produced guidance for families on our home-learning package and how to manage expectations. Our teachers have also maintained written contact via letters to all pupils.

## Increased access to teachers 06

Teachers have now been given access to Google accounts to receive work from pupils and provide feedback / guidance on their learning

## Online platform 05

Dhoon School has enabled access to the Oak National Online Classroom and a link to this portal now sits on the landing page for home-learning on the school website. Here you can access **DAILY VIDEO LESSONS** linked to your child's year group

## Resource bank archive 04

We have now added a "one-stop shop" on the website which we have called our "Resource Bank" where you will find a plethora of worksheets, weblinks and videos to support homelearning. This will build up over time.

## Website re-design 03

Parents advised us that they couldn't always find our home-learning sheets and resources on the website. A full re-design of this section of the website has been now been undertaken to address this.

## Parent feedback 02

The school has taken into account parent feedback which has enabled us to modify our home-learning offer in several respects.

## Existing home-learning offer 01

Dhoon Home-learning Grids, letters to children, weblinks and resources available through our school website. Made available on the first day of school closure in March and regularly updated throughout #lockdown.
