

Hello,

My name is Mrs Stewart and I am going to be your teacher. I am writing to tell you all about our Reception class and to let you know how excited I am to meet you!

I love working in our outdoor areas. We can watch the birds from our log cabin and see the chicks hatching in our nest box using a special webcam. We can go on bug hunts around our garden areas and help to look after lots of plants and flowers around the school.

Miss Cook is our School Educational Support Officer and is part of our Reception Team. She is looking forward to meeting you too! She loves all sorts of sports and can't wait to teach you how to play lots of different games in our sports hall and out on the field. We also have lots of bikes and scooters that we can use in the playground.

We are really excited to show you around your new classroom. Inside we have lots of areas where you can explore with arts and crafts and create models using different materials. There are some great small world toys to play with and some fantastic resources to help support your maths, reading and writing. Outdoors we have a mud kitchen, sandpit, water tray and lots more for you to explore.

We love working at Dhoon School and I know all the teachers and children will help you to feel welcome, safe and happy.

We look forward to meeting you. See you soon!
