

Wednesday 20th January 2021

ONLINE LESSON – science and maths focus today:

For this lesson you will need:

- Be ready to discuss 'forces' and respond to some of our **forces test questions**. (Be good to see follow up work on this after session please.)
- Pencil and paper at the ready, as we attempt maths quizzes using 'Diagnostic Questions' site. (You can use this at home too.)
- We will also play the 'Countdown' word game today (we'll use numbers game another day). *Web link available below.
- *Sound switched on as we continue to 'talk' live in our lessons,
- with the 'chat' option used in a much more directed way.

Your brain, as well as your 'Dhoon High 5' and 'Values'.

Follow up challenges/ suggested learning
can be found below:

Wednesday 20th January - Follow up challenges/ suggested learning:

- Maths - 'Doubling and halving 2'

- There are 4 more sets of questions (A - D), which increase in the level of challenge, with more emphasis on decimals in the later questions. You could use a calculator to check answers and support you with the decimals in particular.

Science : Respond to our 'Forces' test questions

We will discuss some questions during today's live lesson (questions are on the web site.), using our own experience and observations, as well as the information in the knowledge organiser.

I would really like to see some of your follow up work on this. You could respond with writing, typing, diagrams, recordings etc...

Also, have you tried conducting a forces experiment?

As you think about and respond to our test questions you may find this link useful:

- View BBC Bitesize: Forces and Motion - 5 learning guides and many clips to enjoy.

<https://www.bbc.co.uk/bitesize/topics/znmmn39>

- Maths - You may also enjoy 'Mathopoly' - The game board and rules/resources are in the 'Zoom live lesson resources' section on the website.
