We have put together a range of resources and activities that we hope you will enjoy completing and find challenging. The main focus each day is to complete either a Literacy or Numeracy task but we have also included some additional activities that we hope you will find useful.

## Each school day please try to complete:

## Literacy <br> Spellings/Phonics/Handwriting (Approximately half an hour)

We suggest that you start each day with spellings/phonics/handwriting. You will see on the website that we have added some Year 3 and 4 Spelling and Handwriting sheets for you to work through, one per day if you would like to, and there are extras in your folders too. Remember, you also have previous spelling and phonics lists in your reading record books, it is useful to keep revisiting these on a regular basis, practising writing them down and including the words in sentences and paragraphs.

Reading (Approximately half an hour)
Please remember to do some reading every day; this can be from your school reading books, books from home or by logging on to 'Oxford Owl'. Under the 'Extra Reading Tasks' section you will find links to a book review template and Reading Journal tasks, together with the login for 'Oxford Owl', so there are lots of great reading activities for you to have a go at.

Literacy Grid tasks (Approximately an hour, alternate daily with the Numeracy tasks)
On the Literacy Grid you will find five different tasks, a mixture of reading comprehension, grammar and writing activities. We suggest that you spend approximately an hour on each of these tasks, although some may take longer and you might want to complete these over two sessions.

Numeracy (Approximately an hour, alternate daily with the Literacy tasks)
We suggest that you spend approximately an hour on Mathematics activities, included within the grid are a range of activities in a format you are used to using in school. (Please remember to keep practising your target times tables as well and that there are lots of great practical Mathematics activities that you can do at home too e.g. undertaking money tasks, cooking, weighing and measuring activities, have fun with some of these too!)

Daily Live Lessons (Approximately half an hour but follow-up tasks may then be added) Please join us at 1:30pm each day for our 'Live Lesson' where we will go through activities from our Learning Grids and sometimes set extra follow-up challenges too!

Additional activities (Approximately an hour)
Under the 'Additional Activities' tab, you will see that we have included some mindfulness colouring sheets and have also included a set of 'non-screen' activities. Don't forget our favourite website www.Tate.org.uk where you can visit 'Tate Kids' to find some fantastic art activities and information too!

Remember that there are lots of other great activities you can do as well; PE with Joe Wicks starts at 9am on Monday 11th January and there are also lots of great activities to be found in the 'Archived Home Learning' section of our school website, as well as fantastic resources on websites such as 'BBC Bitesize'.

## Please do remember to schedule regular breaks and downtime, this is really important too!

We look forward to seeing you all again very soon!
