

Class 1 Feedback Guidance

When I open my **Gmail**...

I love seeing your photographs.

Your videos make me smile :)

I know that you are working super hard from the work that I have received.

I read all of your emails and I will always try to acknowledge your message with a response. Even if it is just a quick 'thank you'.

You can send emails everyday, every few days or just once a week.

I know how busy you are at home so share your child's learning at an appropriate time for you.

I will get back to you as soon as I can.

Please keep sending your photos, videos and any work you'd really like me to see.
