

Challenge

- Your challenge is to use Lego (or a type of construction kit that you have at home), to build a model of your ideal cafe or restaurant OR build the perfect little cottage for Little Red Riding Hood's grandmother.
- This activity will involve lots CREATIVITY and it is something that you can work on INDEPENDENTLY ...and I'm sure there will be times that it needs lots of DETERMINATION too!
- When you are building your model you will need to: count, measure, solve problems, think about patterns that can be created, but most of all HAVE FUN!!!!
