

Super Scientists

Sir David Attenborough
Naturalist, Broadcaster
and Campaigner

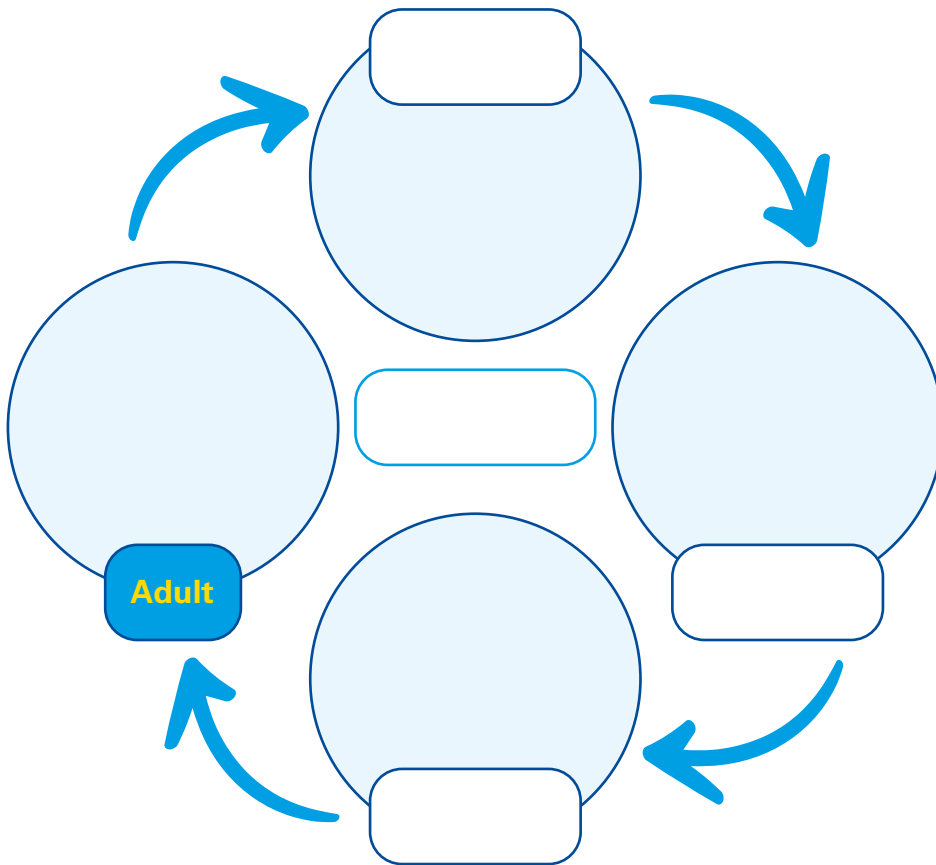

Every living thing on Earth has a life cycle.
Different groups of living things have different life cycles.

1. Choose an animal from the list and write its name in the middle of the life cycle diagram:

2. Complete this animal's life cycle, using the correct words from the word bank.

3. Draw pictures to show each stage of the life cycle.

Word bank

- ★ Baby
- * Juvenile
- Egg
- Nestling
- Tadpole
- Fledgling
- Embryo
- Froglet
- Caterpillar
- Foal
- Frogspawn
- Pupa

If you need help, go to bp.com/bpes/life-cycles-poster

You are planning a new wildlife documentary.

What will you call your documentary? What animals and plants will you show? What is special and interesting about these living things? Do some research on the internet to gather interesting facts. Then, create a poster or leaflet to advertise and promote your documentary.
